

EZ-Guide® 250

EZ to Install. EZ to Operate. EZ on the Budget.

The EZ-Guide 250 display provides high-quality, entry-level guidance capabilities at an entry-level price. It is well-suited for broadacre crop applications with the standard sub-meter GPS antenna or upgrade to 6–8" pass-to-pass accuracy using the optional AG-15 antenna. Perform manual guidance or add a steering system to make your farming operations easier – day or night.

Display Features

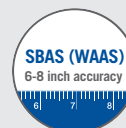

- Compact 4.3" color display
- One-touch function buttons
- Intuitive user interface
- USB data transfer
- Integrated GPS receiver

Guidance and Mapping

- Compatible with the EZ-Steer® assisted steering system
- As-applied and coverage mapping

GUIDANCE

- 6–8" accuracy when used with optional AG-15 antenna

UPGRADES

Accuracy Level

- AG-15 antenna for improved WAAS accuracy

Simple Operation

- On-screen wizards get you up and running quickly
- The Startup Wizard removes any guesswork by allowing you to input all the information required to start guidance with a quick and easy, step-by-step process

Mapping

- The Overhead view shows where you are and where you have been
- For a different point of view, see the Perspective view (shown above)
- Insert a USB stick and easily transfer your coverage maps to your PC for printing

Function Buttons

- One-touch function buttons give you quick help and extra how-to information any time

Additional Advantages

- Add EZ-Steer 500 for hands-free assisted steering
- Upgrade to 6–8" pass-to-pass accuracy by purchasing the AG-15 antenna kit
- Optional cabling available for radar speed and NMEA output
- Mounts using a simple-to-install RAM mount
- Rugged cast aluminum housing for reliable operation and durability
- Languages available: English, Spanish, Portuguese, French, and many more
